IMMEDIATE RELEASE - Friday, 11 April 2014

### **THE ALUMASC GROUP PLC - MAJOR ORDER**

The Alumasc Group plc is pleased to announce that Levolux has secured another multi-million pound order at Chiswick Park in West London. Levolux will design and install a fully motorised external solar shading solution at Building 7, which is likely to be the final building on this development to be given the go-ahead.

As with previous buildings, the louvres on this 12 storey building are motorised with fully automatic solar controls, all by Levolux. Construction has already commenced on site with the Levolux works starting in Autumn 2014.

Levolux has already completed an initial contract for works on this building and the likelihood of follow-on work had already been factored into expectations for the group's next financial year, ending on 30 June 2015.

Paul Hooper, Group Chief Executive, commented:

"We are delighted that Levolux has won another large project at Chiswick Park, reflecting the Company's market leading position in the supply of sophisticated external shading solutions that reduce energy costs in new commercial buildings".
