About Alumasc:

Alumasc is a UK-based supplier of premium sustainable building products, systems and solutions. Almost 80% of Group sales are driven by building regulations and specifications (architects and structural engineers) because of the performance characteristics offered.

The Group has three business segments with strong positions and brands in their individual markets. The three segments are: Water Management; Building Envelope; and Housebuilding Products.

Alumasc held a Capital Markets Event on 10 October 2024, providing an in-depth look at the Group's strategy across its three divisions, and on the solid foundations which underpin the Group's medium term growth ambitions. A copy of the presentation, and a video recording of the event, are available on the Group's new website at <https://www.alumasc.co.uk/results-reports-presentations>
