Valpak Chairman

A handwritten signature in black ink, appearing to read 'S. Gough', positioned above a horizontal dotted line.

Valpak Chief Executive Officer

Recycling & Climate Change

In the vast majority of cases, recycling waste is more efficient than producing new products from virgin material. This results in lower emissions of those greenhouse gases that cause climate change, and helps safeguard resources.

Your contribution has helped the UK to recycle 8,203,853* tonnes of packaging during 2023.
